

Mac OSX 10.5.3 to 10.6 WiFi Setup

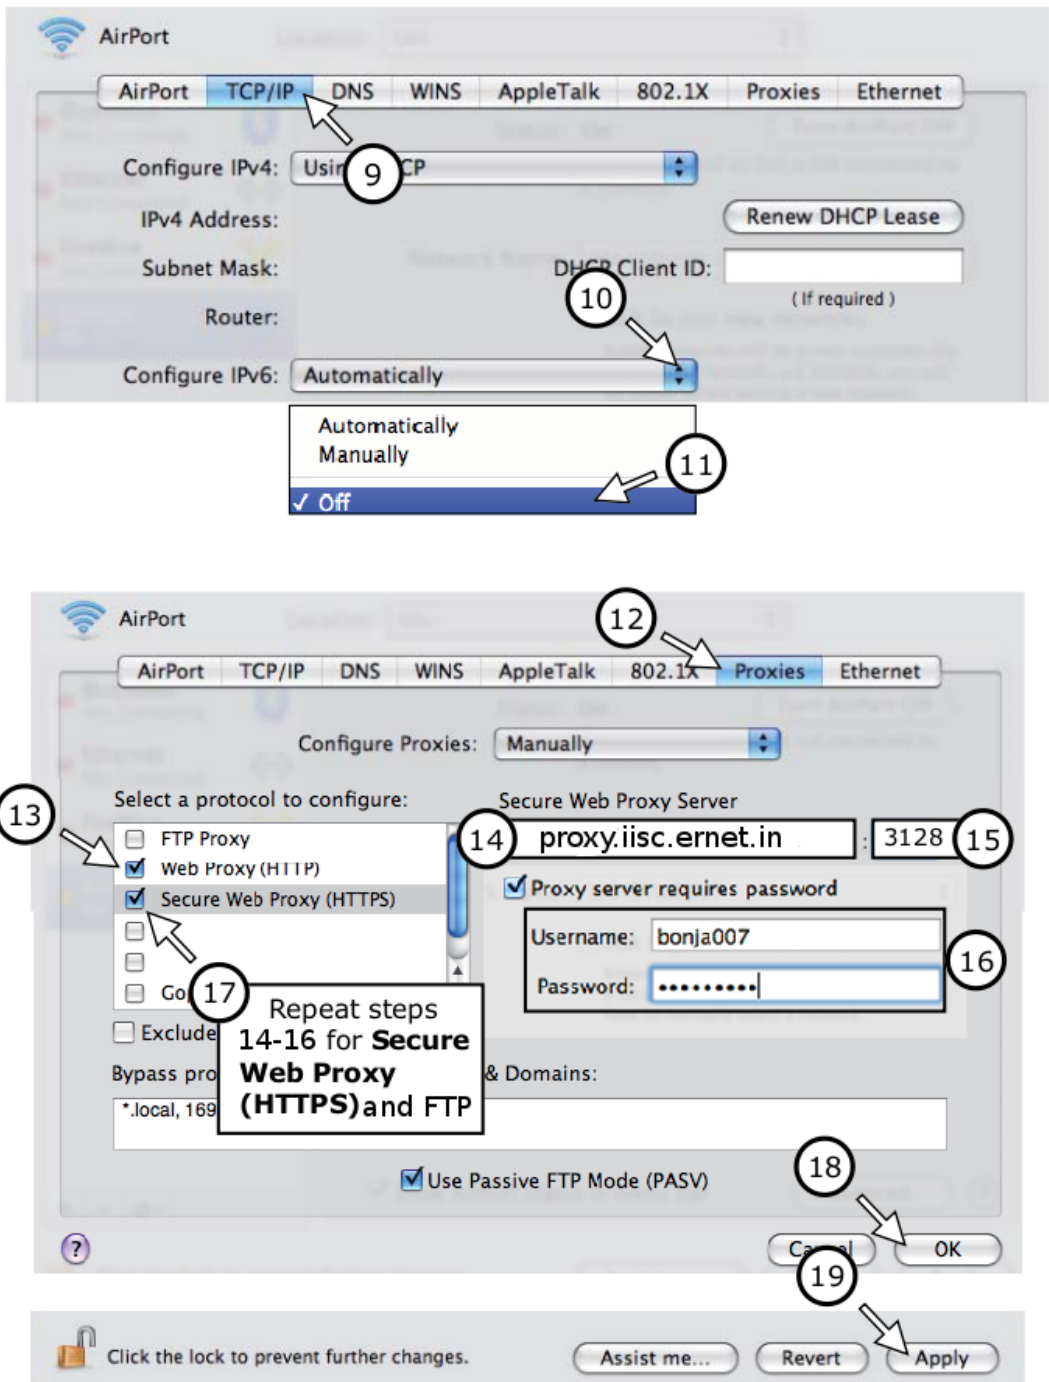

The certificate verification steps 1-3 may pop-up at any point in the set-up. You may even have already completed these steps if your laptop has attempted a connection to the student network.

Continue with the following steps to set up your wireless internet

Mac OSX 10.5.3 to 10.6 WiFi Setup

Using **Firefox**? Follow the additional setup steps below

① - ⑤ **Firefox** Menu: Preferences > Advanced > Network > Settings...
